Amir Jusufović

Student of Electrical engineering- automatics robotics and industrial informatics

I would describe myself as a communicative, creative and reliable person that is capable of working in a team aswell as individually. As a young and perspective student I'm ready to acquire new knowledge that will help me upgrade current and develop new skills. Two main characteristics i like to point out about myself are posessing great problem-solving skills and multitasking ability.

Experience

2023

EESTEC project marathon vol.3

Volunteer at Eestec project marathon vol.3 and member of PR team
